

Sinar GrainPro 6070

- Fast results – Moisture, Hectolitre & Temperature in approx. 6 seconds
- Accurate – $\pm 0.3\%$ moisture content
- Fully Portable – rugged construction, battery powered
- Fully Automatic– no charts, scales or thermometers
- Extremely Easy to use – whole grain testing
- Can be calibrated for up to 25 separate crops
- Made in the UK

Product Description

The Sinar GrainPro simultaneously measures the moisture, weight and temperature of the sample in under 6 seconds.

The unique technology allows you to measure samples with the minimum of preparation and has no detrimental effect on the sample tested. The open measuring cell and sealed moulding of the 6070 make it ideal for range of different sized products. From larger products such as cocoa beans to much smaller items such as vegetable seeds, it can accommodate them all once the calibrations have been downloaded.

With over 30 years of experience in moisture measurement Sinar Technology is the market leader for accurate, portable moisture meters. The Sinar GrainPro comes ready calibrated for Wheat, Barley, Oats, Peas, Beans, Linseed, Oilseed and Rye but can store calibration data for up to 25 commodities allowing it to be tailored to your exact requirements.

Other calibrations available include Maize, Nuts, Seeds, Tea, Coffee & Spices. Ask us for more details.

If you need to measure the moisture of your crop then use the most accurate portable moisture meter in the World – the Sinar GrainPro 6070.

Product Features

Accuracy:	Typically 0.3 STD for %mc and 1.0 kg/hl STD for specific weight
Repeatability:	0.05 to 0.15 STD for %mc
Measurement Range:	1 to 35% mc dependant on application
Operating Environment:	0 to 55 °C
Dimensions:	325mm x 164mm x 120 mm
Weight:	2.2 kg
Power Supply:	4 x C size 1.5V Alkaline Batteries
Sample Cell:	290ml Volume, 20 – 240g
Printer Output:	RS232C, 300 or 4800 baud
Processor:	Intel 8DC31 microprocessor
Memory:	35K EPROM, 32K RAM
